### **Tzu Thé's New T-2GO Now Makes it Possible to Enjoy all the Health Benefits of Green Tea Anytime, Anywhere!**

(Atlanta, GA) – According to recent studies, coffee is one of the most widely consumed beverages in the world<sup>1</sup>. However, the health effects of coffee are still up for debate. Many studies will confirm that anyone who drinks more than two cups of coffee a day can experience a wide range of negative effects. With all of these health issues to consider, why not replace your daily fix with a hot cup of green tea? You are not limited to two cups, and in fact, it is said that drinking three to four cups a day can lead to an immense amount of proven health benefits<sup>2</sup>. **Tzu Thé's** collection of green tea products and brand new accessory, **T-2GO**, now make it possible for consumers to enjoy green tea on the go.

**Tzu Thé** is truly revolutionizing the way we drink green tea. They are the first green tea company to offer the single-serving **T-POD™** filled with premium loose, dry green tea leaves that are pesticide-free and packed full of EGCG<sup>3</sup>, the most potent form of antioxidant. EGCG provides health benefits that may help to reduce risks of cancer and tumors, lower cholesterol, help with digesting excess fat, and even protect against the common cold virus. These convenient individual tea pods make drinking green tea easy for consumers on the go. Tzu Thé has recently launched the newest member to their line of unique and innovative tea accessories, **T-2GO**. It works as a steeping device that snaps on to standard 12oz and 16oz hot paper cups. You simply drop the

**T-POD™** into the device and the leaves steep in the hot water, creating a great-tasting, immune-boosting beverage. To provide even more convenience, **Tzu Thé** has introduced the

<sup>3</sup> epigallocatechin gallate

**T-Buddy™**, a “Two Headed” portable tea bottle with a built-in infuser that doubles as a tea mug and a tea pot for hot or cold beverages to go.

**Tzu Thé** was founded in 2004 as the result of Dr. S. T. Liao’s lifelong passion, vision, guidance, and most importantly, 47 years of in-depth cancer research. Dr. Liao, known as the “Father of EGCG” at the University of Chicago, discovered that EGCG, the most potent form of antioxidant available, in green tea is a key biochemical and biological driver for many health benefits, that may include the reduction of cancer and tumors, lower cholesterol, help with digesting excess fat, and even protecting against the common cold virus. These discoveries motivated Dr. Liao to deliver EGCG rich products to the market for the benefit of human health, beauty, and wellness in all; thus **Tzu Thé** was born.

The health benefits of green tea are undeniable, and with Tzu Thé’s new T-2GO, tea lovers can now enjoy it whether they’re at work, running errands, or sitting in the park soaking up the sun. **Tzu Thé** is headquartered in Atlanta, Georgia. For more information on this product or to find out how you can become a distributor, please visit the **Tzu Thé** website at [www.Tzu-The.com](http://www.Tzu-The.com) or contact Cristina Romeo by phone at (805) 565-4122, or by email at [cromeo@christiecomm.com](mailto:cromeo@christiecomm.com).
